Proline®

Since the launch of the CZ Scorpion EVO 3 A1 it has been well received by the Airsoft community. Our Partners, Airsoft players and magazines have tested, used and enjoyed the many quality features the EVO 3 A1 Airsoft gun has to offer.

All the feedback we've received from the Airsoft communities has allowed us to further develop the EVO 3 A1, so today it now comes with removable fixed sights and a 6.03mm precision inner barrel out of the box. The continuing great interest from players and Airsoft communities has prompted us to design and create exciting new accessories, some of which are now available and are shown in this brochure. However, as we keep developing and adding accessories to the EVO 3 A1, we encourage you to keep up to date with the latest developments through our website.

We thrive on the feedback from both our partners, Airsoft players, online foras and communities and are committed to using this input to further develop the EVO 3 A1 and its accessories. Engage with us through our social media channels and tell us what you would like to see as a future accessory for the CZ Scorpion EVO 3 A1, so we can continue to evolve and develop the EVO 3 A1 to meet your needs and demands.

The EVO

Superior build quality

Where the standard in Airsoft is to replicate the exterior in appearance only, the EVO 3 is built to be as tough as the real thing. The fiber-reinforced polymer used in the construction is the same as the original submachine gun, making it one of the toughest Airsoft guns around. The EVO is designed to be built from fewer parts than most Airsoft guns. The simple construction using high quality components results in a durable, high performing AEG that is easy to take apart for service, maintenance and upgrades.

Special features

Great effort went in to designing the details of this Airsoft gun, this is evident in how well everything fits together, from the tight fit of the folding adjustable stock on the receiver to the way the fire selector sounds when it clicks into position. Along the many unique features of the EVO 3 A1, it still offers many of the standard features found on other Airsoft guns allowing players to customize and upgrade their Airsoft gun.

New designed gearbox

The EVO 3 A1 gearbox is designed from scratch by ASG, rather than modifying existing gearbox versions to deliver functions they were not intended for in the first place. The EVO 3 A1 internals have been purpose built to deliver advanced functions by using custom electronics, while having the strength necessary to handle powerful springs or high-speed solutions. Add to all this the easy power change design with one-tool quick spring access, allowing fast in-the-field spring changes to best match mission requirements.

ECU controlled gearbox

Not content with the limitations of a traditional electrical gearbox, the EVO 3 A1 gearbox has been designed with an innovative electronic control unit. Benefits of using an electronically controlled Airsoft gun include; reduction in the number of mechanical and electrical parts resulting in increased battery and motor efficiency, while offering an instantaneous crisp trigger response that experienced Airsoft players appreciate.

Realistic handling

The EVO 3 A1 has been envisioned, designed and built to bring Airsoft players as close to the experience of handling the original (polymer) EVO 3 A1 as possible. All weight, size and handling characteristics have been constructed to match the real gun – and like a real gun, the Airsoft version will stop firing when its magazine runs empty, and requires activation of the bolt catch after a fresh magazine has been inserted.

User friendly

The EVO 3 A1 features an ergonomic design with fully ambidextrous controls that are easy to access and operate even while wearing gloves. Its compact size, lightweight and ambidextrous design lets it be handled by any player and makes it perfect for high speed games and CQB. Being a highly realistic licensed replica in both form and function this Airsoft gun will also appeal to both mil-sim and gun enthusiasts alike.

Combat ready

Get the most out of the EVO 3 A1 by optimizing your loadout. Our magazines come in a triple package, giving the player a head start in setting up his EVO platform. The magazine pouches, which are made specifically for the EVO 3 A1 magazines, makes it easier and faster to reload, react and be combat ready.

Magazine 3-pack

EVO 3 A1. 75 rd. capacity. Made from polycarbonate, it is very durable and has the exact dimensions and material choice as the original CZ magazines – an ideal fit for original CZ magazine clips.

Ref. 17844

CZ magazine clip - 2 pcs.

This is an original accessory supplied to ASG from CZ. These clips are used to hold 2 magazines together, for a fast reload – an essential accessory in high-speed skirmishes.

Ref. 17850

CZ magazine pouch

This is an original CZ accessory supplied to ASG. This double magazine pouch is made from durable cordura nylon, and holds two magazines, each in separate compartments for fast access. It is securely fastened with a quick release plastic buckle. It attaches to any belt, MOLLE or PALS system.

For 2 magazines Ref. 17851

CZ magazine pouch

Made for the real CZ EVO 3 A1. These magazine pouches are designed and made by the same manufacturer that supplies tactical accessories to CZ. The pouches are made from durable Cordura nylon, and holds one or two magazines for fast access

For 1 magazine

Ref. 18055

CZ magazine pouches, quick release system

This single magazine pouch is made from durable Cordura nylon, and holds a magazine for fast access. The magazines are covered with a flap that is securely fastened with a quick release system, simply grab and pull the tab, and the flap is unlocked and pulled open in one swift move. It attaches to any belt, MOLLE or PALS system

For 1 magazine

Ref. 18057

For 2 magazines

Ref. 18 056

Adaptive platform

The design of the EVO 3 A1 makes it a very adaptive and versatile platform, giving players the option to add optics, grips and other devices to enhance their Airsoft experience. Our very own line of accessories that can be mounted on the EVO 3 A1, are all made of high quality material with focus on making players more effective and adaptive to any situation on the playing field.

CZ front support set

This is an original accessory supplied to ASG from CZ. The front support set attaches to the lower rail and is designed to prevent the operators hand from sliding in front of the muzzle.

Ref. 17846

CZ rear iron sight

This is an original accessory supplied to ASG from CZ. This rail mounted rear sight is made by LPA, known for making quality aiming devices for the firearms industry. The sight features a ring aperture and is adjustable for elevation and windage. CNC made from Alloy.

Ref. 17861

CZ front iron sight

This is an original accessory supplied to ASG from CZ. This rail mounted front sight is made by LPA, known for making quality aiming devices for the firearms industry. The sight features a large white ball sight, which is protected by strong side walls. CNC made from Alloy.

Ref. 17862

CZ sling

This original single point sling is made especially for the EVO 3 A1, and is supplied directly from CZ. It features an adjustable plastic buckle and a bungee cord protected by a corduroy cover. The sling is attached to the gun with paracord to avoid rattling.

Ref. 17638

CZ flash hider

This is an original accessory supplied to ASG from CZ. This original flash hider is made from steel, intended for the hard core mil-sim player or collector.

Ref. 17863

14mm CCW adapter

For mounting standard 14mm CCW accessories, such as barrel extension, flash hidere and other similar accessories. This adaptor replaces the 18mm flash hider and allows any Airsoft barrel attachment to be screwed on the 14mm CCW threading.

Ref. 17950

Sling mount

Replacement part should the original be lost or for having a mount on both sides of the Airsoft gun. This small metal part sits wedged between the front end and the receiver and provides a forward attachment point for a 2 point sling. Can be attached on either the left or right side of the EVO 3 A1.

Ref. 17976

On the go

Providing storage capability is key when traveling to and from the playing field. Easily identified as premium EVO accessoires, our exclusive bag and case, are designed to ensure safe storage and optimal protection.

Tactical carry bag

Custom made for the EVO 3 A1, this tactical carry bag features a main compartment with cut-out foam. The foam keeps the EVO 3 A1 tightly in place with extra space for any type of optical sights the player might wish to mount to the gun. The exterior of the bag features 3 mag pockets for a total of 9 magazines, a long pocket that can hold a large BB bottle and a zippered admin pocket with velcro attachment area. The EVO 3 A1 logo is shown in stylish 3 color embroidery.

Ref. 17830

Rugged EVO field case

Rugged field case for the EVO 3 A1. An extremely tough field case with 4 locking clamps, making it both water and dust tight. This lockable plastic field case, features cut-out foam in-lays, that securely holds an EVO 3 A1 and up to 6 magazines along with a compartment for the battery pack. The user can customize the case to hold more equipment.

Ref. 17946

Evolve

Continuing to develop and produce new exciting accessories and upgrades, we've listened to our customers and players in the Airsoft communities to make the EVO experience better.

Multi adaptive sling

The new adaptive sling is designed especially for the EVO 3 A1. It allows for a multitude of carry styles. It is made to transition quickly from style of carry to another depending on the mission and battlefield conditions. Its size should accommodate even larger players wearing bulky tactical vests. The quick pull tab is constructed to eliminate snagging when moving through brush and woodland environments.

Ref. 18161

CNC custom EVO trigger

This metal short-stroke trigger is CNC machined from a single block of high strength aluminum. This trigger will create an extremely fast and crisp trigger pull. The EVO 3 A1 is born with an electronically controlled gear box, with an electronic switch allowing this short-stroke trigger to be a drop-in installation, without any modifications. The easiest customized trigger job ever.

Ref. 18162

Steel spring guide w/ bearing

This upgraded spring guide has a core of high-tension steel, making it capable of handling any power spring one could wish to install in the EVO. It is also the easiest upgrade ever, since the spring guide on the EVO can be removed without disassembly.

Ref. 18163

EVO M4 stock adaptor

This stock adaptor allows the mounting of an M4 push-on tube and will accommodate most M4/M16 stocks currently produced. It provides a unique way of customizing The EVO 3 A1, while still retaining the ability to fold to the side for transportation or operations in confined spaces. The mounting bracket is made from CNC machined aluminum for unsurpassed strength and durability. It comes assembled and ready for installation, simply attach a push-on stock tube and tighten its mounting screw inside the tube.
