

ActionSportGames® unveils the CZ Scorpion EVO 3 A1 Inferno at SHOT Show 2016

Espergaerde, Denmark – January 19, 2016– ActionSportGames® unveiled today the CZ Scorpion EVO 1 A3 Inferno Airsoft rifle at SHOT Show 2016.

ActionSportGames® and Wolverine Airsoft have come together in an unprecedented partnership to bring high pressure air technology to the bestselling CZ Scorpion EVO 3 A1 Airsoft rifle. This collaboration marks the first time in history that an Airsoft manufacturer and a HPA engine manufacturer have worked together to mass produce an HPA-powered Airsoft replica.

The CZ Scorpion EVO 3 A1 Inferno utilizes the simple and reliable Wolverine Inferno high pressure air engine as the propulsion source, which is mated to a custom-designed trigger board that retains all the features and functionality of the original EVO gearbox. By partnering with Wolverine Airsoft, ActionSportGames® will soon be able to offer customers a choice between two EVO models; an electric version manufactured completely in Denmark, and a high pressure air version with an engine made in the United States.

Features:

- Constructed out of the same fiber-reinforced polymer as the real CZ Scorpion EVO 3 A1
- Wolverine Inferno HPA engine with custom trigger board
- Adjustable muzzle velocity, rate of fire, and firing modes
- Empty magazine detection
- Ambidextrous controls
- Folding/collapsible stock

ActionSportGames® is the worldwide leader in the business of replica firearms and accessories development/manufacturing – including Airsoft guns, Airguns, CO₂ guns, and firearms replicas. ActionSportGames® released the groundbreaking CZ Scorpion EVO 3 A1, CZ P-09, and the Dan Wesson 715 revolver in prior years. ActionSportGames® is defining the future of Airsoft and Airguns worldwide through innovation and service.
