DW 715 6"

pellet revolver

Dan Wesson

DAN WESSON FIREARMS®

The classy Dan Wesson Model 715 double-action revolver is back in production. For revolver lovers, that's big – and welcome news. And this highly accurate Airgun replica features all the details that you find on the real firearm. From the one-piece 6-inch heavy barrel complete with vent rib with threading for attaching a rail shroud for mounting optics and lights or laser, to the Hogue replica rubber grip.

The grip shell has an ingenious integrated tool for tightening the CO₂ cartridge that powers this revolver. Even the forward cylinder latch and the clockwise rotation of the cylinder on the real firearm have been faithfully replicated (*Rail not included in package*)

Dan Wesson 2,5" pellet revolver

New

Compact and stylish. This 2.5" silver plated revolver licensed by Dan Wesson, offers realistic shooting fun in a handy size. It has authentic markings and an individual serial number stamped into the frame. The revolver features a double action trigger system and adjustable rear sight for extra realism and accuracy. The Dan Wesson revolver is made of metal except for the ergonomic grip constructed in hard ABS plastic.

The 12g CO₂ / Air cartridge is stored in the grip and is easily accessed by sliding the grip back – easy-load style.

Each of the 6 cartridges holds one BB and is placed in the metal cylinder that rotates as each round is fired. The revolver comes with speed loader, attachable tactical rail and 6 cartridges.

Speed loader included

Box of 12 pellet CNC cartridges

These cartridges are made from steel and polished brass with Dan Wesson engraved at the base. The weight, feel and look of these are as close to real .357 hollow point revolver cartridges as you can get. Each holds one 4.5mm pellet and the large gas conduit allows more gas to pass thru increasing muzzle velocity

For both pellets and steel/plastic BBs

CZ P-09

The CZ P-09 is a full-size version of the popular P-07 compact pistol from CZ. The CZ P-09 has a rifled barrel which makes it even more precise. It is capable of using both BBs and pellet, making it a very versatile Airgun.

Having access to CZ designs allows for the replicas to be produced as close to the real thing as possible. The CZ P-09 has been designed for use by law enforcement and armed services, and has therefore undergone rigorous stress tests, where the firearm has impressed

with its reliability and accuracy. When designing the polymer frame for the CZ P-09, the decision was made to retain the basic grip shape (circumference, angle, etc.) so popular with the CZ 75 family of handguns.

CZ SP-01 Shadow – Non blowback

This exciting new airgun is based on the the new generation of CZ 75 SP-01 pistols, that have been created based on input from Law Enforcement, Military and Police communities worldwide, and with additional input from the Team CZ world premier shooters Angus Hobdell and Adam Tyc. The pistol frame which comes from a new mold incorporates alterations such as recess beneath the trigger guard and beavertail to enable a higher grip of the handgun. Sights consisting of fiber optics front sight and rear sight to promote much easier, faster and more accurate target acquisition.

Adam Tyc, member of the CZ Shooting Team achieved using the SP-01, at the IPSC shooting events (Production Division) title of the World Champion (2005, 2008), European Champion (2007) and he is also winner of AustralAsian Games (2004, 2007).

Features:

The design is based on the proven CZ 75 line of pistols. MIL-STD-1913 accessory rails for fitting tactical lights and lasers. The front of the trigger guard is provided with serrations and the front strap is also serrated for better grip. Checkered rubber grip panels

CZ 75 – Blowback

The CZ 75 has long been known for its superior ergonomics. This fully licensed 4.5mm Airgun is an accurate replica in both form and function, it sits perfectly in the hand and its realistic blow-back action powered by CO₂ / Air, will provide hours of shooting fun. Full metal construction, just like the real gun all outer components are made of metal, which ensures a solid pistol with an ultra-realistic appearance.

The internal mechanisms have been designed to be simple, durable and reliable, and the chrome metal outer barrel adds an attractive contrast to this CZ 75.

- Empty mag slide lock
- Heavy weight
- Full metal
- CO₂ powered

CZ 75 P-07 DUTY – Non blowback

The CZ 75 P-07 DUTY is the new generation of the CZ 75 family which was first designed back in 1975 by the famous small arms manufacturer Česká zbrojovka, Czech Republic. This is the semi automatic 4.5mm (.177) airgun version fully licensed by CZ. It is powered by a 12g CO₂ / Air cartridge stored in the grip using the easy-load system and the BB's are put in the drop-out magazine.

The CZ 75 P-07 DUTY is a compact tactical upgraded version compared to the standard CZ 75. Besides being more compact in size the P-07 DUTY has an intergrated front waiver rail for mounting light and laser.

The grip and metal slide carries authentic CZ markings and every gun comes with unique serial number.

CZ

CZ 75 P-07 DUTY Dual tone – Blowback

The CZ 75 P-07 DUTY is the new generation of the CZ 75 family which was first designed back in 1975 by the famous small arms manufacturer Česká zbrojovka, Czech Republic. This is the semi automatic 4.5mm (.177) airgun version fully licensed by CZ. It is powered by a 12g CO₂ / Air cartridge stored in the grip using the easy-load system and the BB's are put in the drop-out magazine.

The CZ 75 P-07 DUTY is a compact tactical upgraded version compared to the standard CZ 75. Besides being more compact in size the P-07 DUTY has an in-

tergrated front waiver rail for mounting light and laser. The grip and metal slide carries authentic CZ markings and every gun comes with unique serial number.

Three versions of the CZ 75 P-07 DUTY are available – a non-blowback and two blowback versions. Blowback is a term used when the slide cycles back and forth when firing the gun, giving a more realistic feeling and sense of recoil.

CZ 75D Compact – Non blowback

A black version of the semi automatic 4.5mm (.177) CZ 75D Compact, licensed by Česká Zbrojovka, Czech Republic. The airgun has authentic CZ markings and unique serial number. The front waiver rails give you the opportunity to mount laser and flashlight. The rear sight is adjustable to secure better accuracy. The magazine holds 17 BB's and also stores the 12g CO₂ / Air cartridges.

The Magazine is protected with a rubber base, to provide durability if it is dropped. The grip is rubber patted and with the high rise beavertail, it secures a firm grip with perfect control.

The pistol comes with a tool allowing you to change the CO₂ / Air cartridges in the magazine and unscrew the front to unveil the threads for fitting a barrel extension tube.

Bersa BP9CC **Dual tone**

Learn more about this fantastic Airgun, ref. 17483 on www.actionsportgames.com

Bersa BP9CC Dual tone – Blowback

This dual tone version of the BP9CC is a semi-automatic 4.5 mm Airgun with blowback, fully licensed by BERSA. It is a lightweight, compact, ultra thin handgun, with an ergonomic design that improves line-of-sight. It is powered by a 12g CO₂ / Air cartridge stored in the grip using the easy-load system and the BB's are put in a removable stick magazine.

An integrated accessory rail allows for mounting of lasers or tactical lights. The grip and metal slide carries authentic BERSA markings and every gun comes with unique serial number. Uses magazine ref. 17305

- Optional safety lever included
- Barrel threaded for barrel extension tube
- Accessory rail
- 3-dot sight system
- Dual tone finish

BERSA

TM

Bersa BP9CC – Non blowback

This BP9CC is a semi-automatic non-blowback 4.5 mm Airgun fully licensed by BERSA®. It is a lightweight, compact, ultra thin handgun, with a ergonomic design that improves line of-sight. It is powered by a 12g CO₂ / Air cartridge stored in the grip using the easy-load system and the BB's are put in a removable stick magazine. An integrated picatinny rail allows for mounting of lasers or tactical lights. The grip and metal slide carries authentic BERSA® markings and every gun comes with unique serial number.

The BP9CC (Concealed Carry) is the first polymer frame handgun from BERSA® the Argentinian firearms manufacturer, known world-wide for producing reliable, affordable handguns. Since 1958, BERSA® has been manufacturing accurate, reliable, and robust handguns, utilizing advanced firearms technologies paired with a history of innovation. The Argentinean Military, as well as law enforcement officials around the world, have routinely issued and relied on BERSA® handguns as their official sidearm. BERSA® is currently one of the largest privately owned corporations in Argentina.

THE RIGHT TOOL FOR THE MISSION

The Original, Covert (all black)

Designed and manufactured to take on the toughest tasks you can throw at it, the Original Glove provides a winning combination of versatility and performance.

Size M **Ref. 17041**

Size L **Ref. 17042**

M-pact, Covert

Forefinger and thumb utilize tacky Clarino material affording sure handling when you need extra grip. The wrap-around rubber molded wrist closure adds additional protection.

Size M **Ref. 17071**

Size L **Ref. 17072**

The Original, Coyote

With 20 million pairs Mechanix Wear gloves sold worldwide, and worn by police officers, gunnery sergeants, SWAT, Navy Seals, tank operators, and pilots, it shows the trust people have in Mechanix Wear.

Size M **Ref. 17046**

Size L **Ref. 17047**

M-pact, Coyote

Anatomically mapped die-cut EVA foam palm pads for improved protection. For exceptional performance the glove gives you tapered finger stretch side panels and a Spandex stretch panel at the thumb.

Size M **Ref. 17076**

Size L **Ref. 17077**

The Original, Woodland

The Clarino Synthetic Leather palm and fingertips extends the life of the glove while the Thermal Plastic Rubber hook and loop cuff closure and two-way stretch Spandex top provides a perfect fit.

Size M **Ref. 17051**

Size L **Ref. 17052**

M-Pact, Woodland

A glove that absorbs punishment so your hands don't. The M-PACT Glove has been designed with an anatomically engineered direct injection molded rib panels placed over the knuckles and backhand guard against abrasion

Size M **Ref. 17081**

Size L **Ref. 17082**

The Original, Foliage Green

Dual-layered thumb and fingers puts extra material in this high wear area to extend the life of the glove. This extra layer helps prevent blister, allowing for uninterrupted work.

Size M **Ref. 17687**

Size L **Ref. 17688**

M-Pact, Fingerless

The wrap-around rubber molded wrist closure adds additional protection. The fingerless design allows maximum dexterity.

Size M **Ref. 17317**

Size L **Ref. 17318**

The Original, MultiCam

Durable synthetic leather extends the life of the glove and breathable TrekDry® material with MultiCam® multi-environment camouflage form fits the top of your hand.

Size M **Ref. 17875**

Size L **Ref. 17876**

Fastfit, Covert

Professionals and enthusiasts agree – the Fast-Fit® glove is a toolbox must-have. Form-fitting stretch panels between the fingers provide a snug fit and the elastic cuff offers easy on and off flexibility between tasks.

STI Duty One – Non blowback

The DUTY ONE is fully licensed by the famous high-end small arms manufacturer STI International, based in Texas, USA. The 4.5mm (.177) steel BB's are stored in the drop-out magazine and powered by a 12g CO₂ / Air cartridge which is cleverly kept away in the pistol grip thanks to the easy-load system.

The airgun is semi automatic and based on the classic model 1911 but STI has upgraded and changed the design and many of the functions. The frame has an integrated front weaver rail for mounting

light and laser. The grip is marked with an STI logo and the high rise beavertail grip, secures a perfect hold on the pistol. Furthermore the pistol has unique serial number.

The metal slide has beautiful authentic STI markings and you have two options to choose from – a non-Blowback and a Blowback version. Blowback is a term used when the slide cycles back and forth when a shot is fired. This gives a more realistic feeling and a sense of recoil.

TAC4.5

TAC4.5 – Non blowback

The TAC-4.5 rifle is a light weight, CO₂ powered Airgun rifle with an ergonomic pistol grip that holds the 4.5mm BB's in a stick type magazine allowing a fast reload.

The rifles feature a full-length picatinny styled top rail for optics and accessories. The lower part of the rifle has a long rail for attaching the included fully adjustable folding bipod, and can be used for other equipment like tactical lights. Furthermore the rifle features an integrated mounting bay for a laser aiming module especially designed for this rifle. The thumbhole stock has a built in rubber pad for added comfort when shouldering the rifle. Included is also a pair of removable fixed sights with a self-illuminated fiber optic front bead. Using CO₂ means more power and a high fire rate, making this an exciting and fun gun to shoot. Uses 4.5mm round steel BBs or alternatively plastic BBs.

Scopes

Mount rings

Set of 2 low-profile rings each with 2 screws. Keeps scope or dot-sight close to the rail. Intended for mounting on airguns. Fits scopes and dot-sights with a 25.4mm (1 in.) body. Mounts on 11 mm rails. Ø25, 4x20x11 mm

Ref. 15070

Scope, 4x20, 11 mm mount

A lightweight entry level scope ideally suited for Air guns with 11mm rail. Comes pre-fitted with mounts.

Ref. 11024

Scope, 43x32 with mount included

A fixed powered scope ideal for medium range shooting. Fully adjustable for windage and elevation with coated optics that are water, fog and shock proof. Included are a set of 0.8" height mount rings for standard rails and protective lens caps.

Ref. 17371

Scope, 3-9x40 with mount included

A variable powered rifle scope featuring a magnification that can be adjusted within a range of 3-9 times. Low power lets you scan the playing field, and when you spot a potential target, zoom in for verification. Ideal for long range sniping or pinpoint target shooting. Included are a set of 0.8" height mount rings for standard rails and protective lens caps.

Ref. 17372

Dot sights

Dot sight, 1x, 20x30 mm, red

Red dot sight with manual on/off button at the rear facing end. The size of the lens is 20-30mm (0,8-1,2 in.) and the total length of the dot sight is 120mm (4,8 in.). The dot sight comes with integrated mount for accessory/weaver rails.

Ref. 15101

Dot sight, 1x22-33, red

This multi red holo-sight has 4 different dots to chose between and can easily be changed on the rear selector. Each dot selection can be adjusted with 7 different intensity levels. The dot sight has intergrated 21 mm accessory/weaver rail mount that fits most rifles and pistols. The front facing lense is coated with an anti glare reflection. 22 x 33 mm (0.9 x 1.4 in.)

Ref. 15099

Dot sight, 1x21-17, red

This Low profile dot sight allows either a green or red dot to be projected into the lens. It has 5 levels of variable light brightnes, and has integrated fixed sights as back up. The dot sight has a 21 mm accessory/weaver rail mount that fits most rifles and pistols

Ref. 17129

Dot sights 1x, red

Classic military styled red dot sight available in two different sizes. 30mm and 40mm indicates the diameter of the objective lens. Both versions has 11 insensitivity settings and the red dot has both windage and elevation adjustment.

Dot sight, 1x, Ø30, red

Ref. 11096

The front facing lens is Anti-glare reflective coated. The intergrated 21 mm mount allows you to mount the dot sight on standard accessory/weaver rails without any further accessories.

Dot sight, 1x, Ø40, red

Ref. 11097

Lights/Lasers

Universal laser

Compact rail mounted laser. Designed to fit a standard weaver rail, this laser unit will be perfect for the CZ or STI series featuring a rail system. Rugged lightweight construction, slides on easily, and stays tightly locked on with the aid of a retention spring. The laser is fully adjustable for windage and elevation and features an ambidextrous on/off switch that can be activated by the shooting or non-shooting hand. Rail at bottom of laser allows mounting of additional equipment like a tactical light.

Ref. 17184

Tactical light and laser, red

Combination light/laser, especially suited for pistols. Fits rifles with weaver rail. Operated via tail switch. It is possible to have only light or laser activated. Easy fast detachable mount, allows to quickly mount the light/laser on the handgun when needed.

Ref. 15927

Tactical light – Super xenon

Super bright tactical flashlight, perfect for pistols with frame rail. The light can quickly be switched on and off on the rear facing switch. The flashlight is supplied with a belt clip, where the light can be held when not mounted on a pistol.

Ref. 16085

LED flashlight – Multifunction

Multifunction LED flashlight with 3 modes of operation, full power, low power or strobe effect. Can be mounted on most Airguns with rails. Included is 2 special mounts, both lets you quickly click the flashlight on or off. A belt mount that keeps the flashlight on the belt either for transport or to provide hands-free light

Ref. 16927

Light with switch

3 watt tactical LED light. This compact light is shockproof and waterproof. The light is switched on either with a button or pressure switch. The tactical light fits perfectly under your pistol or on the side of your rifle.

Ref. 16076

Universal barrel mounted bipod

A slim profile barrel mounted bi-pod with foldable and extendable legs. It mounts quickly on any barrel with a latch and gets tighten in place with a tension screw for a secure tight fit.

Ref. 17475

BLASTER

Ammunition

ActionSportGames now offers
3 types of ammunition for our Airguns.

4.5mm steel BB's

These spherical projectiles are intended for use in smooth bore barrels. They are typically used for backyard plinking, close range target practice and general training.

4.5mm Pellets

Intended for use in rifled barrel airguns. Pellets are usually diabolo shaped; making them stable in flight, the thin skirt at the base expands in the barrel to catch the grooves resulting in a stabilizing spin making pellets ideal for long-range accurate target shooting and pest control.

4.5mm plastic BB's

These lightweight plastic projectiles offer an even cheaper and safer alternative to steel BB's, due to the much reduced kinetic energy they impact on their targets. Great for beginners and indoor use.

We recommend only using the BLASTER BB's from ASG as we cannot guarantee the same high quality and consistency in diameter in other brands of BB's.

BLASTER steel BBs

These 4.5mm chrome plated steel BB's are for target shooting and casual plinking. Intended for use in smooth bore airguns only. They are delivered in a practical plastic container with a filler nozzle that makes filling the airgun magazines fast and easy.

Weight: 0.35 g,

Caliber: 4.5 mm/.177

1500 BBs Bottle

BLASTER 4.5 mm plastic BBs

New plastic BB's for 4.5mm airguns.

These innovative super light weight BB's are safer to use, due to them hitting the target with much less kinetic energy. And even better is their low price, making shooting much more affordable. Packaged in a sealed plastic container.

Weight: 0.13 g,

Caliber: 4.5 mm/.177

Diabolo pellets

ASGs Diabolo 4.5mm pellets are a basic flat head pellet type made from a clean refined lead, without admixture, which could affect the oxidation. The pellets are clean, free of debris and with a high metal shine. This keeps the shooters hands clean and what is more important prevents debris, which could affect the function of the weapon, from accumulating in the mechanism and barrel. Resulting in a flawless operation and extended lifetime of the weapon.

Weight: 0.47 g,

Caliber: 4.5 mm/.177

200 pellets

CO₂ and Air capsules

Ultrair® CO₂ cartridges with lubricant

Make cleaning and maintaining your CO₂ gun a breeze. The new lubrication cartridges from ASG can be used in all CO₂ powered Airguns using a 12 g CO₂ cartridge. In addition to the CO₂ gas, the cartridges are also filled with 0.8 g of silicon oil that cleans and lubricates the valve while shooting, and at the same time provides all moving parts of the gun with a layer of oil that lowers friction and wear, resulting in smooth action, consistent accuracy and increased lifespan of all parts

12 g, 5 pcs

Ref. 17425

Ultrair® CO₂ cartridges

Each cartridge contains 12 g of CO₂, used to power all CO₂ powered Airguns.

12 g, 5 pcs

Box of 500 pcs. CO₂ cartridges

12 g, 500 pcs.

Ref. 16117

Air cartridges

HPA capsules (High Pressure Air) are the latest innovation in the airgun industry. Using a container similar in size and shape to a CO₂ capsule, but with a refillable valve, an air pump can be used to refill the capsule again and again, making it very affordable in the long run. Great for the frequent shooter. Using this system also means the capsule pressure can be adjusted making the muzzle velocity in the airgun adjustable.

Safety tips

Keep your finger off the trigger until you are ready to fire.

Treat all Airguns as if they are loaded until checked.

Wear appropriate eye and face protection when handling Airguns. (Simple safety glasses may be adequate when target-shooting).

Always use an appropriate carry case when transporting Airguns in public. Be responsible, other people might not recognize a replica gun for what it is.

Always clear the chamber after removing the magazine by firing the gun in a safe direction.

When not using the Airgun, remove the magazine and empty the chamber. Never use any pre-used or damaged BBs and pellets.

Laser sights are only sold in countries where local laws allow them.

Never aim a laser at the eyes of yourself or others.

Always wear safety goggles when using your Airgun.

Do not look directly into the gun barrel.

Never aim or shoot at people or animals. Always set the selector on "safe" position (except when you are ready to shoot a target).

Select a safe place for shooting. Avoid shooting in public places.

Do not disassemble gun yourself. Always contact your local retailer.
